

Our logo

Clear space

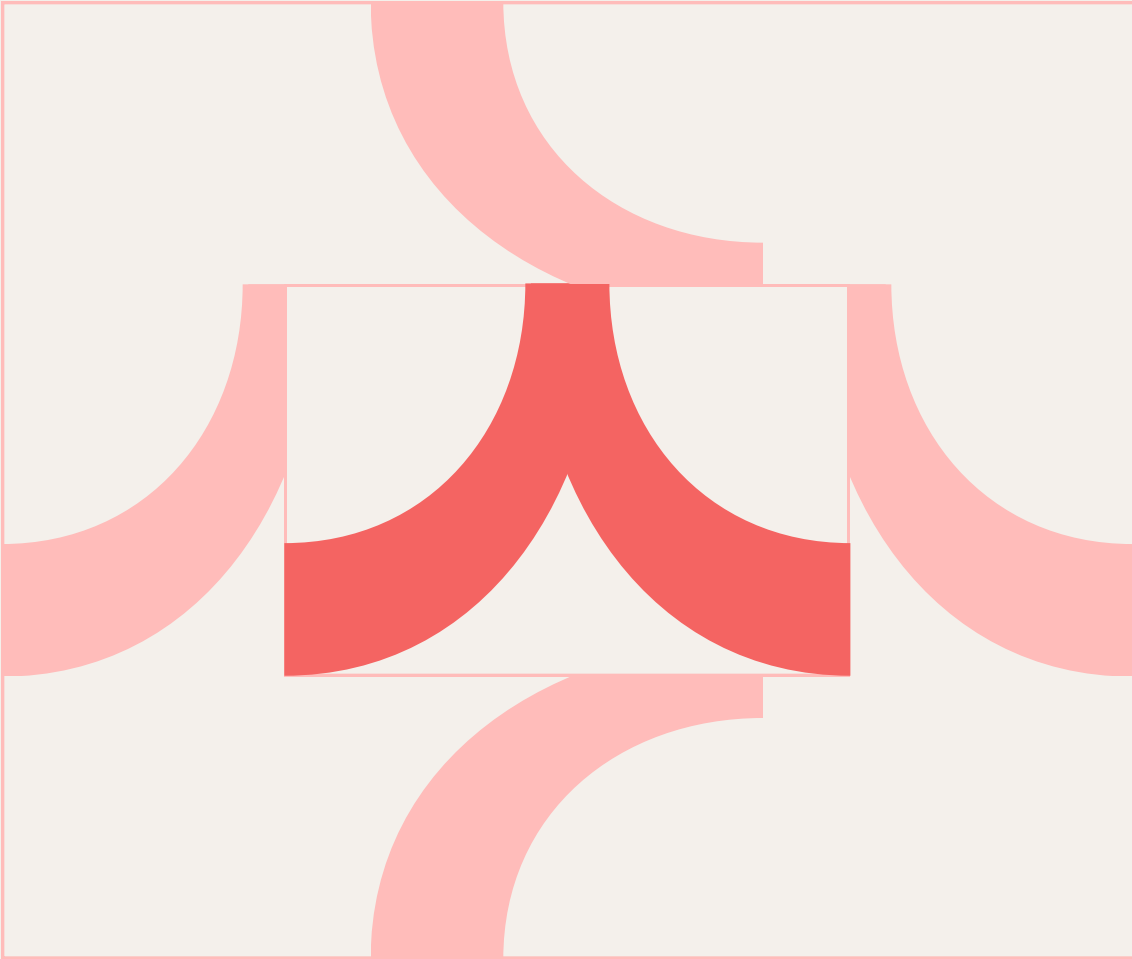

Clear space is key for our logo lockup. Give it enough room on all sides to avoid clutter and keep every element balanced. This makes sure the lockup always looks strong, unified, and unmistakably JobLeads.

Our logo

Clear space

Clear space protects the strength of our symbol. Always give it room to breathe, free from clutter or competing elements. This ensures our symbol stands out and remains instantly recognisable wherever it appears.

Small scale

The minimum width for our symbol is 18px. Never use it smaller than this to keep it recognisable at any size.
